

Florachem Solvents

CITRUS SOLVENTS

PINE SOLVENTS

VEGETABLE BASED METHYL ESTERS

"Green"... "Renewable" ...
"Biodegradable" ...
"Organic"... "Natural" ...

These words are the new reality for your formulation needs, and Florachem is focused on providing alternatives for traditional solvents that meet the new demands of the marketplace.

We utilize Pine, Citrus and other natural raw materials that give our customers cost-effective and quality driven options.

Florachem Solvents

Product	Product Description	Appearance	Terpenes	Application Features
Citrus Solvents				
d-Limonene	Solvent Grade d-Limonene recovered from Orange peels	Colorless Liquid	92% - 95%	Excellent non-polar natural solvent for greases and waxes with a mild citrus odor
Orange Terpenes	Fragrance Grade of d-Limonene from the purification of Orange Oil	Colorless Liquid	94% - 96%	Lower and more consistent odor than solvent grade Limonene
High Purity Orange Terpenes	Higher purity of d-Limonene from distillation of Orange Terpenes	Colorless Liquid	96% - 98%	Highest content d-Limonene for critical applications
Orange Oil	Cold Pressed Orange Oil	Yellow to Orange liquid	92% - 94%	Same performance as Limonene/Orange Terpenes with more citrus odor and color
Pine Solvents				
Pine Oil 40	Synthetic Pine Oil: 40% Alcohols	Light Yellow Liquid	60%	More non-polar solvency than traditional Pine Oils
Pine Oil 60	Synthetic Pine Oil: 60% Alcohols	Colorless Liquid	40%	Standard Pine Oil used in cleaners and disinfectants
Pine Oil 85	Synthetic Pine Oil: 85% Alcohols	Colorless Liquid	15%	High Terpene Alcohol content
Florasolv™ DPE	Standard Pine Oil Dipentene	Colorless Liquid	70%	Similar solvency to citrus Limonene. Pine-like odor and more stable availability
Florasolv™ DCG	Purified Dipentene with no Oxygenated Components	Colorless Liquid	95%	Same or better solvency than Limonene on Waxes and Greases
Florasolv™ DLP	Natural Dipentene ex Turpentine	Colorless Liquid	95%	Lower cost alternative to standard dipentene when odor is not an issue
Florasolv™ DLP-SF	Natural Dipentene, Sulfur Free	Colorless Liquid	95%	Natural, low odor and low cost alternative solvent
Florasolv™ TPT	Turpentine Extender	Colorless Liquid	95%	Contains similar components of natural turpentine, provides excellent solvent properties but at a low cost.
Turpentine, Gum	Pure Gum Turpentine	Colorless Liquid	95%	100% natural solvent with a characteristic pine odor
Specialty Products				
Florasolv™ VME-228	Short-Chain Fatty Acid Methyl Ester (LVP VOC Exempt)	Colorless Liquid	-	Used as an VOC exempt solvent with slightly higher solvency than standard Soy Methyl Ester
Florasolv™ LHF	Limonene based solvent with a High Flash Point	Colorless Liquid	-	Industrial cleaners and solvents that need Limonene like performance with a Flash Point above 140F
